Dear Ms. Dortch:

Please accept this letter as our request for the FCC to review the decision made by USAC regarding the denial of our 471 Application, as well as our appeal. Information regarding this application is as follows:

Application Information:

471 Application # 519924
Billed Entity Number: 6575
Funding Request Numbers: 1430819, 1430823, 1430827, and 1430830
Reason for Denial: Contracts for the requested services were not signed and dated by both parties prior to the filing of the form 471.

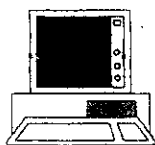

Our request for this decision to be reversed is based on the fact that we provided contracts to support the services requested under separate cover after submitting our 471 Application. We then supplied signed and dated contracts to the USAC during the Selective Review process. I have enclosed copies of these contracts to confirm our compliance with their requests. It is our opinion that the date on the upper right hand corner of each contract would suffice as meeting the requirement of dating each contract.

We have complied with all the requests made of us in accordance with the rules and regulations of the Schools and Libraries Division and feel this denial is based on inaccurate information. Therefore, we respectfully request your review of this denial and ask that funding be granted so that the students may benefit from this desperately needed services. If you need any further information to support this appeal, please do not hesitate to contact me directly.

Sincerely,

Sister Patricia Hogan O.P.
Principal
